

Product Education Series:

Advanced Training

During this class, we will show you some of the advanced programming features of the ASIC/3 family of configurable controllers. You will also have the opportunity to learn about combining programming in the controllers with programming in the front end. Essential Training is a prerequisite for this class.

by ASI Controls

Course Overview

We will show you some of the advanced programming features and new objects in the ASIC/3 family of controllers. We will also provide some front end examples that can be incorporated in your projects to make the screens more interactive. You are encouraged to ask questions during the class so that we can discuss specific topics that can help you with your projects.

This course is intended for customers who have completed Essential Training and would like to learn more about ASIC/3 programming.

Course Date/Location

This 3-day course will begin at 8:30 AM on Tuesday, February 26, 2019 at the Hotel Indigo Raleigh Durham Airport At Rtp. The street address is 151 Tatum Drive, Durham, NC 27703. Please return a completed enrollment form by Friday, February 1, 2019 if you are planning to attend.

Cost

The Advanced Training course costs \$795.

Candidate

An acceptable candidate for this program should have completed the Essential Training course or have equivalent experience. Participants in the course are expected to provide their own hardware, including a computer using Windows 7 or newer (with an administrative login/password) with a free USB port and wired Ethernet port, as well as the hardware and software you wish to use during the class. You may also choose to simply view the demos if you do not have the required hardware and software.

Contact ASI Controls if you need to purchase any hardware, such as an ASIC/3 controller, or software, such as ASI Visual Expert.

We also recommend bringing an external mouse, since most people can navigate faster with an external mouse than the built-in pointing device(s) on a portable PC.

Airports

The closest airport is the Raleigh–Durham International Airport (RDU). The hotel offers complimentary airport shuttle service from the airport.

We should be through all the core material by Thursday at 3:00 PM so that you can schedule a flight home at a reasonable time.

Hotel Information

Below is information on the hotel where the training will be held. Listed prices are as of January 2019.

Hotel Indigo Raleigh Durham Airport At Rtp

1 Tatum Drive, Durham NC 27703
